Your company color

Pick one color and every page your customers open uses it, with readable contrast worked out for you.

Steps

1. Open Configure, then This company.
2. Under Your color, pick the color you use on your van or cards, or leave it unticked to use the standard color.
3. Press Save.

Good to know

HQ works out the lighter and darker shades from your one color, and checks every pairing stays easy to read.

Your customers see your company name and color. They never see Orshi or HQ.
