Giving Orsa a spreadsheet or a photo

Attach a spreadsheet or a photo in Ask Orsa, and tell Orsa what to do with it.

Steps

1. Open Ask Orsa and press Attach a file. Pick an Excel or CSV file, or a photo.
2. Say what you want, such as "Update these prices" or "Add these customers."
3. Check what Orsa would change, and press Confirm.

Good to know

HQ reads the file itself. It is never sent to the AI, and only its name is kept afterwards.

A file can be up to 10 MB.
