How Orshi charges you

Your plan, what you owe and your past invoices are in Configure, under This company.

Steps

1. Open Configure, then This company, and find Your plan.
2. See this month so far and your past invoices.
3. Press Add a card or Change card to pay from a different card.

Good to know

A job counts toward your bill once, when the customer picks their first time. Reschedules are free.

Each job’s own page says whether it is on your bill and why.
