Signing up

Start your company at orshihq.com/start. It takes about ten minutes, and you can stop and come back.

Steps

1. Go to orshihq.com/start and press Start your company.
2. Answer one question per page: your company name, what you do, the number customers call, your time zone, your name and your email.
3. Say whether you go on jobs yourself or run the office.
4. Check your email and choose a password from the link we send.

Good to know

Every page has a short line saying why we ask, and an i you can tap for more.

Nothing is texted to anybody while you sign up. Your texting is switched on later, once the phone carriers approve it.
