Trying HQ with your own demo company

Make a free account and get a company of your own to try, filled with sample customers, jobs and a team.

Steps

1. Go to orshihq.com and press Try the demo.
2. Make a free account with Google, Microsoft or your email, and press Make my account.
3. Your own demo company opens. Book jobs, send Quotes, ask Orsa and change anything you like.
4. When you are ready, press Sign up and keep my setup. Your services, prices, team, hours and settings move into a real company.

Good to know

A demo lasts 14 days. At the end of the last day, Pacific time, everything in it is wiped, unless you sign up.

Nothing in a demo reaches a real phone, inbox or card. Its texts, emails and payments are only pretend.

The sample customers and jobs stay behind when you sign up, so your real company starts clean.
