"We got it wrong" credits

If HQ made a mistake that cost you a job, take that job off your bill right away.

Steps

1. Open the job and find On your bill.
2. Press We got it wrong and pick what HQ did wrong.
3. It comes off your bill now. If it was Something else, a person at Orshi answers.

Good to know

Every job left off your bill has a reason recorded, so the bill always adds up.
