What Orsa will never do

Orsa never saves anything on its own, never does money arithmetic, and never sees more than you can.

Steps

1. Every change waits for you to press Confirm.
2. Every figure comes from HQ’s price book or HQ’s own sums, never from the AI.
3. Orsa never makes an emergency less urgent, and never texts someone who did not contact you first.

Good to know

Everything Orsa does is recorded under the person who approved it. You are responsible for what you confirm.

Orsa only answers how-to questions from these help pages, so it cannot make up a button that does not exist.
